

## MELGES 32 KIT

#	Part code	Specification	Application
1	PCT500051165	Translucent, 500 micron, 51mm wide, 16.5m long	pulpit to protect against damages from the Tylaska of the gennaker tack
2	PCT250051165	Translucent, 250 micron, 51mm wide, 16.5m long	to hide the block screws on the mast (halyards)
3	PCT125051165	Translucent, 125 micron, 51mm wide, 16.5m long	front of the mast to make smoother the connection between mast and spreaders
4	PML125025330	Light Grey, 125 micron, 25mm wide, 33m long	pulpit, spreader tips, V1, stanchions and rail (to avoid damages to the the gennaker while dropping it)
5	PML050025330	Light Grey, 50 micron, 25mm wide, 33m long	rigging tape for general purposes
6	PWB500025100	Black, 500 micron, 25mm wide, 10m long	for all purposes (shrouds mainly)
7	PWB500100100	Black, 500 micron, 100mm wide, 10m long	for the mast boot
8	PHT003	Translucent, 250 micron, 51mm wide, 4m long	for the headfoil system
9	PCB250152165	Black, 250 micron, 152mm wide, 2m long	front of the mast till the jumbo, two stripes 2m long
9a	PCB500152165	Black, 250 micron, 152mm wide, 2m long	front of the mast only
	PHP003	Light grey, 250 micron, 51mm wide, 4m long	for the headfoil system (high temperature performances)
	KIT A	All tapes marked	
	KIT B	PHT003 replaced by PHP003
