

FXE 4500 & 7000 New !
Compact electric Code sail furlers

Multi-motor concept
(already used on the EC electric headsail reefing system)

ELECTRIC CODE SAIL FURLER

FXE 4500 & 7000 (New model) FEATURES :

- > Electric Code sail furler, compact : Height is similar to the manually-operated endless line drum for an easy switch to motorization
- > Two models FXE 4500 & 7000 (new) : for flying sails up to 250 M²
- > Complete kit including : relay box, circuit breaker, electric deck fitting, protection cover and storage bag
- > Option : wired or wireless controller

ADVANTAGES of the FXE CODE SAIL FURLER :

- > Quick furling (45s max. for a 140m² Code sail) and easy (radio controlled)
- > Make flying sails easy to handle in solo or in small sized crew
- > Contained power consumption : 30-35 Ah under load (FXE4500)
- > Available in 12 or 24 Volt.

Technical data

BOAT LENGTH TAILLE	MODEL MODÈLE	Part number / Référence	Gennaker max area Surface max.	Power Puissance (W)	Furling speed Vitesse de rotation (rpm)	Amps / Voltage Intensité / Tension	Dimensions
